

## A30 PEAK DESIGN BOOTH

Peak Design Booth is a booth solution with a slight tilted side screen to create dynamics and openness. The booth is coupled with zipper and can therefore be built in infinity. The height is as standard 1400 mm and the side screens have two different depths either 850 mm or 1200 mm. Select screens in the same textile or in a color scale as below to create unique workplaces. Keep clean and tidy around and under the desk by choosing a recessed cable grommet in the screens.

A30 Peak Design is available as a BIM object.
